

Project deployment phase

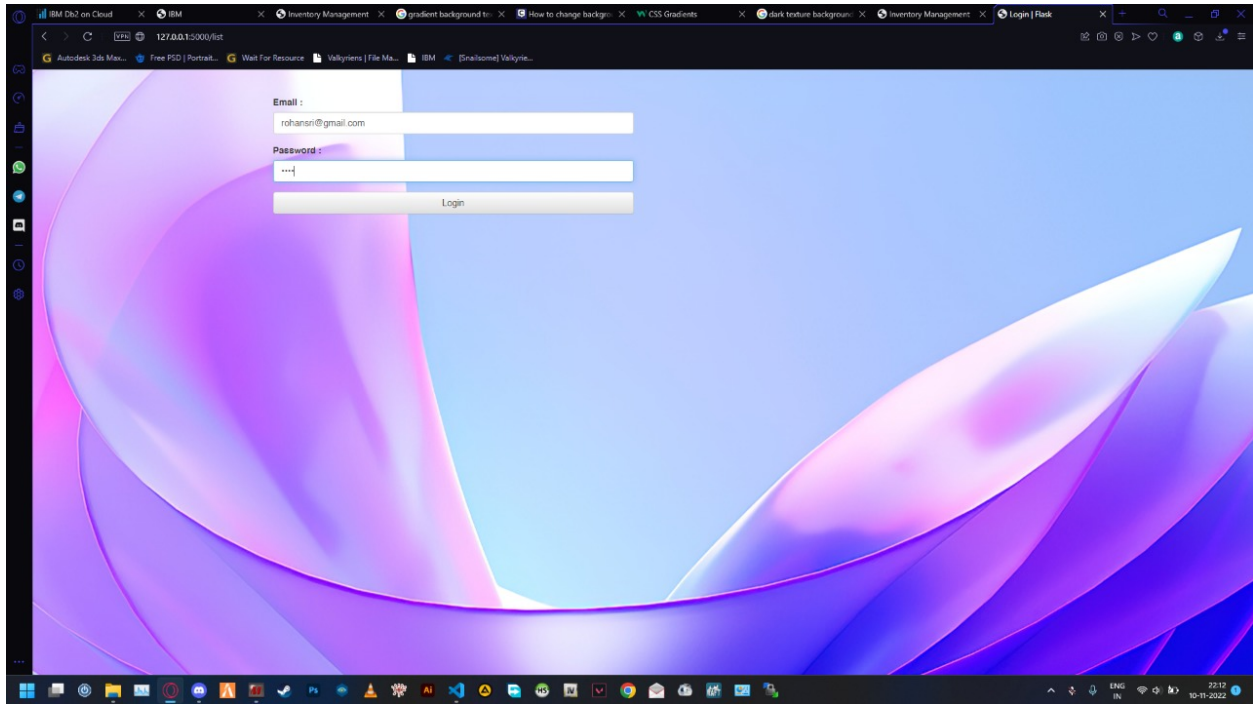

Sprint-2

Team ID: PNT2022TMID27088

Project Name Project - Inventory Management System for Retailers

Login:

Data base:

The screenshot shows the IBM Db2 on Cloud console interface. The 'Connections' tab is selected, displaying a table of active connections. The table has the following columns:

Application name	Client user ID	Client IP address	Application handle	Connection start time	Workload name	Service superclass name	Workload occurrence state	CPU time /min	Rejected rate
python3.10.exe		172.30.68.128	54397	Nov 10, 2022 10:10:48 PM	SYSDEFAULTUSER WORKLOAD	SYSDEFAULTUSERCLASS	UOWWAIT	0.00.048	0.00

The console also includes a search bar for application handles or names, a 'Pause data refresh' button, and a 'Refresh' button. The status bar at the bottom indicates 'Last collected: 22/11/10 10:12:46 PM'. The taskbar at the bottom shows various application icons and the system clock.
